THE PAYOFF

What we gained

01

Team efficiency

02

Team happiness

03

Fewer mistakes

04

Democratised information

05

Scalability

CONNEXUS

THE PLAYBOOK

How we build with AI

One schema

Database changes in one place only

Agent playbooks

AGENTS.md and rules in every repo

Humans approve

Staging first. A person says yes.

Small steps

About 10 pull requests a day

Idea → AI agent writes it → Staging → Human approves → Production

THREE LESSONS

What we'd tell you

01

Start small. Follow the pain.

Our first app was an invoice scanner. It became our stock system.

02

Unify your data early.

One database turned separate apps into a platform.

03

AI writes. Humans decide.

Agents type fast. People own what ships.
